Syngenta Turf XC Nozzles

syngenta®

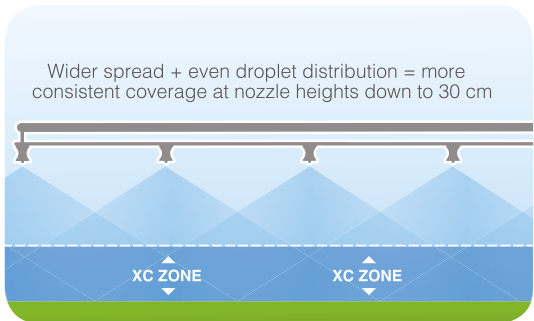

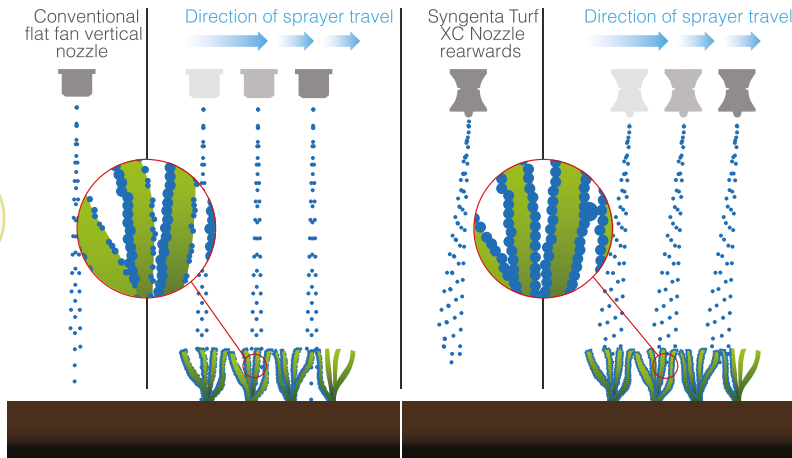

The rearwards spray angle compensates for the forward movement of the sprayer, delivering better all-round coverage of the turf leaf.

Angled spray

Fit Syngenta Turf XC Nozzles so that the angled spray pattern faces rearwards. Insert nozzles into the bayonet with the Syngenta logo and moulded arrow on the nozzle to the front (facing direction of travel).

Syngenta Turf XC Nozzles fit ISO standard bayonet caps on most sprayers. Hardi sprayers will require bayonet adapters. These are available from the GreenCast website.

Even coverage

Wider spread + even droplet distribution = more consistent coverage at nozzle heights down to 30 cm

Syngenta Turf Nozzles have been specifically designed to cope with and maintain even coverage when spraying undulating ground.

The unique combination of XC Nozzle office design and air-induction technology means significantly less drift.

For optimum performance operate the Syngenta Turf XC Nozzle at 50cm height from nozzle tip to spray target zone. Fit the Syngenta Nozzle Height Indicator for ultimate accuracy.

08 XC Nozzle recommended for:

Fungicides targeted at soil application and wetting agents.

04 XC Nozzle recommended for:

Fungicides targeted at soil application and wetting agents.

Foliar nozzle application chart

Nozzle	Pressure (bar)	Flow rate per nozzle (l/min)	Application rate l/ha at respective forward speed (km/hr)					
			3	4	5	6	7	8
08	1	1.848	739	554	443	370	317	277
	1.5	2.263	905	679	543	453	388	339
	2	2.163	1045	784	627	523	448	392
	2.5	2.921	1168	876	701	584	501	438
	3	3.20	1280	960	768	640	590	480
	3.5	3.456	1383	1037	830	691	638	518
4	3.695	1478	1109	887	739	682	554	

Other Syngenta Turf XC Nozzle sizes available: **04** - Foliar fungicide, herbicide and growth regulator applications at faster speeds. **025** - Foliar fungicide, herbicide and growth regulator applications at slower speeds.

■ Optimum range

Other Syngenta Turf XC Nozzle range availability:

	Size	Typical water volume (l/ha)	Typical spraying speed (Km/hr)	Recommended use
	08	220 - 400	5 - 7	Foliar fungicides and applications on fairways and rough
	025	220 - 400	3 - 5	Foliar fungicides and applications on greens and tees
